

Ampco Pumps Company

PUMP SPECIFICATIONS WORKSHEET

Completion of this worksheet will enable us to select the appropriate pump model and motor for your specific application. If you have additional questions, please contact our inside sales department at (414) 643-1852 or email us at sales@ampcopumps.com for further assistance.

Name: _____ Company: _____

Phone: _____ Email: _____

Serial number (if this is a replacement pump) _____

Media to be pumped _____

Operating Temperature (°F): _____ Viscosity (cps): _____

Specific Gravity: _____ Particulate Size: _____

Performance Requirements: GPM _____ TDH / PSI _____

NPSH Available _____ Max Working Pressure Requirement _____

Suction Line Size _____ Total Elbows _____ Total Tees _____

Total Valves _____ Discharge Orientation (45dg / 90dg) _____

Casing Drain Orientation (Side - Left or Right / Center / Front) _____

Discharge Line Size _____ Total Elbows _____ Total Tees _____

Total Valves _____

Any other equipment that should be considered for pressure drop:

Material (Ni-Al-Bz / Stainless Steel / Duplex 2205) Other _____

Sealing Material (Buna / Viton / Other _____)

Pump Assembly (Close-Coupled / Frame Mounted)

Impeller Diameter: _____

Electrical Specifications: Voltage _____ Phase _____ Hz _____

Motor Enclosure _____

Ambient Temperature _____

Special Motor Requirements: _____

Sanitary • Marine • Industrial
